6500 SERIES®
Standard Horizontal End Suction
Centrifugal Pumps
6500 series® end suction centrifugal pumps are based on the proven technology of Gorman-Rupp’s Prime Aire® and Prime Aire Plus® priming-assisted pump models.

More than ever, we continue to update our factories, processes, research and development, and engineering to ensure that our pumps and systems are among the most reliable and efficient in the world. One of our most successful and innovative lines of pumps has been our self-priming models.

Revolutionary improvements were made in 1963 with the introduction of our T Series® self-priming pumps. Since then, continuous improvements to head, flow and efficiency have been made.

Now we are introducing our new line of 6500 Series® standard horizontal end suction centrifugal pumps.

6500 Series pumps are designed for clean liquids or liquids containing large solids. These pumps are ideal for a variety of industrial, construction, mining, agricultural and wastewater treatment applications.

Gorman-Rupp’s commitment to our original philosophy of innovation, continuous improvement, unparalleled quality and customer service continues to set us apart from others.

Gorman-Rupp has been revolutionizing the pumping industry since 1933. Many of the innovations introduced by Gorman-Rupp over the years have become industry standards.

A HISTORY OF INNOVATION

6500 Series® end suction centrifugal pumps are based on the proven technology of Gorman-Rupp’s Prime Aire® and Prime Aire Plus® priming-assisted pump models.
OUR PUMPS DELIVER DECADES OF PERFORMANCE AND VALUE

Gorman-Rupp is committed to continuing to meet your fluid-handling requirements long after installation. The quality manufacturing and testing that goes into every 6500 Series® pump guarantees long-lasting, trouble-free operation. And we provide a five-year warranty and fast parts service to back up our products and ensure your peace of mind.

Value

6500 Series® pumps boast some of the lowest lifecycle costs in the industry. Because of the quality manufacturing and testing that goes into every Gorman-Rupp product, you benefit from minimal service interruptions and some of the lowest maintenance in the industry. Gorman-Rupp delivers the best ROI by ensuring low operating costs for the long haul.

Parts And Service

When you need a replacement part for your 6500 Series, you’ll have it fast. With tens of thousands of genuine Gorman-Rupp parts and pumps at our disposal, we fill and ship 99% of parts orders within 24 hours. Should your pump ever require service, our worldwide network of factory-trained distributors is ready to quickly respond to your needs. With just one number to call for parts and service, it’s easy and convenient to keep your equipment performing as it should.

Peace Of Mind

At Gorman-Rupp, we don’t just say our pumps are reliable. We guarantee every part and working component of a 6500 Series pump for a full five years. With Gorman-Rupp, reliable performance is always guaranteed.
GORMAN-RUPP 6500 SERIES®
Standard horizontal end suction centrifugal markets and applications

We have an experienced staff of engineers dedicated to the design and construction of the most efficient and serviceable pumps in the industry. Our representatives are trained to help you select the proper pumps and related equipment for your specific application. They are also available to offer suggestions on maintaining your equipment for maximum performance.

Wastewater Treatment Applications
- Influent Equalization
- Primary Sludge
- RAS
- Utility Water (Non-Potable)
- Effluent
- Scum
- WAS
- Supernatant Recirculation
- Dewatering Feed
- Sludge Loading

Industrial Applications
- General Water Service
- Chilled and Hot Water Systems
- Cooling Tower Recirculation
- Food Processing
- HVAC
- Industrial Processes
- Industrial Wastewater
- Water Transfer

Construction and Mining Applications
- Wash Plants
- Tire Washing
- Dust Control

Agricultural Applications
- Golf Course and Crop Irrigation Systems
- Manure Slurry and Pit
- Agricultural Waste
- Food Farming
Specifications

Pump Size: 3” (75 mm), 4” (100 mm), 6” (150 mm), 8” (200 mm), 10” (250 mm), 12” (300 mm), 14” (350 mm), 16” (400 mm)
Max. Capacity: 15000 GPM (946.4 lps)
Max. Solids: 4” (101.6 mm)
Max. Head: 530’ (161.5 m)
Materials of Construction: Ductile Iron, Cast Iron CD4MCu - Duplex Stainless Steel

All 6500 Series® pumps come standard with a five-year warranty.

01 | Inlet Spool
02 | Clean-Out Access Port
   Available on solids-handling models
03 | Cast Or Ductile Iron Body
04 | Replaceable Wear Ring
05 | Double Volute
   Available on models 6506A60-B, 6508A60-B and 6510A60-B
06 | Heavy-Duty Ductile Iron Impeller
07 | Oil-Lubricated Mechanical Seal
08 | Oversized Integrated Seal Oil Chamber
09 | Atmospheric Vent
10 | Two Lip Seals
11 | Oil Lubricated Bearings
12 | Heavy-Duty Alloy Steel Shaft
**6500 SERIES® FEATURES & BENEFITS**

The 6500 Series® was designed to extend Gorman-Rupp’s end suction centrifugal pump offering and to better serve applications where a suction lift is not required.

**6500 Series® Pumps Feature:**
- Alloy steel shafts with stainless steel options
- Dual sight gauges for bearing and seal cavities
- Smart Scroll® indexable discharge location
- Atmospheric vent
- Oversized bearings for longer bearing life
- Double volute on larger models
- Solids-handing models include side access for inspection and clean out
- Five-year warranty

**Smart Scroll® Discharge Locator**
The Smart Scroll can be rotated to fit your specific piping system. It can be ordered in a variety of discharge positions.

**Double Volute**
A double volute mitigates shaft breakage and extends the life of the mechanical seals, wear rings and bearings, all while maintaining hydraulic efficiency.

**Side Access Port**
A side access port allows for easy access to pump interior for inspection and clean out while the pusher bolt capability assists in the removal of the suction flange.

Engineering and manufacturing superiority has been the hallmark of Gorman-Rupp since our inception in 1933. Today we bring our products to life in some of the most efficient, modern and state-of-the-art manufacturing facilities in the world. Gorman-Rupp has a selection of nearly 3,000 pump models, and our world-class team of distributors has worked closely with thousands of end users around the world. We have the proven expertise and the resources to specify, manufacture, test and service your pump, and to ensure reliable performance for the long haul.
