

AMT 337E-96 / 338E-96

DIAPHRAGM PUMP

The AMT line of diaphragm pumps features a 2-stage, heavy duty forged gear driven transmission. AMT diaphragm pumps are designed to pump water, mud, slurry, sewage and thick liquids that have the ability to flow.

Electric motor for quiet running

AMT diaphragm pumps are available with a choice of drivers to meet your application requirements. We supply these pumps with a 1.5 HP Single Phase, 115/230 VAC Volt Motor with Manual Reset Overload, quiet running, low vibrations and no emissions.

POWER	TARE WEIGHT	CONSTRUCTION
1.5 HP Single Phase 115/230 VAC	79 kg (338) or 84 kg (337)	Sand Cast Aluminum for portability and durability

Self-priming capabilities

Built-in check valve assures self-priming to 6,1 meters after initial prime. Heavy duty forged gear driven transmission is designed to operate the pump at 60 strokes per minute. Each unit includes a 2" (AMT 338E-96) or 3" (AMT 337E-96) NPT steel suction strainer, two NPT nipples and a wheel kit for portability. Suction and discharge port sizes cannot be reduced.

Features

- Thermoplastic Santoprene diaphragm
- Solids handling: max. 31,7 mm (338) or 41 mm (337)
- Modular component design permits easy maintenance and cleanout

PUMP

AMT 338 (2") or 337 (3") diaphragm pump

MOTOR

BALDOR / ABB
1.5h Single Phase
115/230 VAC Volt motor
with manual reset
overload

PERFORMANCE

Max. 7,5 m³/h (338) /
13,4 m³/h (337) flow or
7,6 mwc head

DIMENSIONS

2" x 2" (338) /
3" x 3" (337) NPT
connection size

OPTIONS:

The AMT diaphragm pumps can be supplied with various options such as:

- In line configurations (suction and discharge ports rotated 90 degrees)
- Connection pieces to customers specifications
- Gasoline engine powered
